Description

Additional information

This is a 1 GPM pulley drive **mist pump**. It has a 9 amp draw at 115V and comes with a NEMA 5-20P 20 amp plug. The pump is designed to operate at 1000 psi and can handle up to 32 .012" [standard mist nozzles](#). Because of the specific pulley configuration used on this unit, the pump speed is reduced from 1750 rpm to 460 rpm. This pump is ideal for all industrial and commercial mist or fog applications and carries a 5 year warranty.

You won't have to worry about noisy systems. All of our products are designed to be whisper-quiet.
